No. 3049 OF 1902.

From

H. N. ALEXANDER, ESQUIRE,
Inspector-General of Prisons,
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,
Judicial Department,
Bombay.

Inspector-General of Prisons' Office,
Poona, 3rd May 1902.

SIR,

I have the honour to submit the following Report on the Administration of Prisons, Jails and Lock-ups in the Bombay Presidency (including the Province of Sind and the Settlement of Aden) for the year 1901. During the first three months the Office of the Inspector-General of Prisons was held by Mr. Filgate, who retired from service with effect from 1st April 1901, from which date I assumed charge of the appointment.

JUDICIAL.

2. The number of Central, District, Special and Extramural Prisons has undergone no change during the year under report. The statistics of all the Third Class Subsidiary Jails have been grouped together along with Lock-ups as was done during the previous years. On this subject I intend addressing Government separately.

3. From the general summary preceding the statements in the appendices to this report, it will be observed that the total population of all classes of prisoners confined in Prisons, Subsidiary Jails, Lock-ups and Civil Jails, during the year under report, has been 101,191 as compared with 148,330 in the year 1900, a decrease of 47,139. The daily average population has been 11,987, showing a decrease of 2,738 over the figures of the year previous. The decrease under admissions will be commented upon in a later portion of this report.

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and First and Second Class Subsidiary Jails only.

Statement No. 1—Number and disposal of convicts.

	1900.			1901.		
	Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year. { Prisons	9,434	218	9,652	10,225	252	10,477
{ Jails	663	32	695	498	40	538
Imprisoned during the year. { Prisons	22,619	1,302	23,921	15,478	1,245	16,723
{ Jails	7,451	681	8,132	3,758	408	4,166
Total ... { Prisons	32,053	1,520	33,573	25,703	1,497	27,200
{ Jails	8,114	713	8,827	4,256	448	4,704
Grand Total ...	40,167	2,233	42,400	29,959	1,945	31,904
Daily average number ...	11,501	304	11,805	10,115	307	10,422

5. There has been a general decrease in the number of convicts admitted to all our Prisons with the exception of the Common Prison of Bombay, the Central Prison of Yeraoda and the Special Prison of Aden. The increase in the Common Prison is due to there having been no suspension of admissions to that Prison as was the case in the year 1900. The admission of many male beggars, sentenced to short terms of imprisonment, has to a certain extent been the cause of increase in the Central Prison of Yeraoda. The increase in the Special Prison of Aden is attributed to there being more

convictions under the Merchants' Shipping Act. The decrease is most marked in the Central Prison of Ahmedabad, 2,587; the District Prison of Dhulia, 1,844; and the House of Correction, 1,109. The decrease in the House of Correction is to a certain extent due to the fact that there was no suspension of admissions into the Common Prison during the year. The net decrease of 7,198 may be assigned to a fall in the prices of food-grains. There has been a decrease in the admissions of female prisoners in all Prisons except the Yeraoda Central Prison, the Prisons of Karáchi and Kárwár. 1,245 females were admitted in the year under report against 1,302 in 1900.

6. With regard to the disposal of prisoners confined in our Prisons and First and Second Class Subsidiary Jails, it would appear that 1,176 less prisoners were transferred than in 1900. Last year many prisoners were transferred from Dhulia to the Deccan Gang to relieve overcrowding because the Gang was only a very short distance from Dhulia, and this ran up the number considerably. In Sind the necessity for transfers was not so pressing, and the decrease in the Jail population made transfers not quite so urgent as was the case last year. As stated in paragraph 6 of last year's Administration Report, 184 transports, of whom 16 were females, were deported to the Andamans on 28th May 1901 in the Royal Indian Marine Steamer "Dalhousie." The number released under the remission rules shows an increase of 315. Of the 5 prisoners released on account of sickness, 2 were set at liberty from Yeraoda, 1 from Dhárwár, 1 from Thána and 1 from Aden. *Vide* the marginally noted Government Resolutions. Out of a total of 227 releases "on other grounds," there were 3 ex-military convicts, who were released from the House of Correction a few days prior to their being sent to England. Four permanently unfit life-transports were released from Yeraoda, 1 from Hyderabad and 1 female prisoner, convicted of infanticide, was released from the Prison of Bijápur. 218 short-term prisoners, sentenced for offences due to scarcity, were also set at liberty. In addition to the above number, 4 prisoners from the Third Class Subsidiary Jail of Vinchur, who are included in the releases appearing in column 7 of Statement No. XVIII, were released. *See* Government Resolutions noted in the margin. In 1900 no less than 806 prisoners were released "on other grounds." This was due to 800 short-term prisoners, sentenced for offences due to scarcity, who were set at liberty against 218 during the year under report. The number of escapes shows an increase which will be commented upon when dealing with Statement No. V. The number of executions fell from 53 in 1900 to 37 in the year under report. Of the 367 prisoners who died during the year, which show a decline of 204 over the figures of 1900, 358 died in Prisons, and 9 in Subsidiary Jails of the First and Second Class. Fifty-seven Burmese and one State prisoner were confined on the last day of the year under report.

Government Resolution, Judicial Department, No. 4347 of 8th July 1901.
Government Resolution, Judicial Department, No. 4574 of 16th July 1901.
Government Resolution, Judicial Department, No. 3502 of 3rd June 1901.
Government Resolution, Judicial Department, No. 1855 of 19th March 1901.
Government Resolution, Judicial Department, No. 3792 of 13th June 1901.

Government Resolution, Judicial Department, No. 7227 of 8th November 1901.
Government Resolution, Political Department, No. 1671 of 27th February 1901.

7. Referring to the figures appearing in the statement noted in the margin, it would appear that except under the heading "All other classes," which shows an increase of 22, there has been a decline in every head under "Religion." Of the 95 males and 55 female juveniles, 9 were previously convicted. Of the former number, 62 males and 49 females were sentenced to one month and under, 21 males and 6 females to above one month and under six months, and 12 males to over six months. All the other heads under "Age" show a decline. There has also been a decrease under "Education of Convicts," except a slight rise under "Able to read only." All the sub-heads under "Previous Occupation" of male prisoners

Satement No. II.—Religion, Age, Education and previous occupation of convicts.

show a decrease except "Persons engaged in commerce and trade" which shows an increase of 53. Except the sub-head "Unmarried" under "Previous Occupation" of females, which shows a slight increase, all the heads show a decline. The percentage of number admitted to free population, according to the Census of 1901, is 0·200 in the year under report.

Statement No. III.—Nature and length of sentence.

8. With the decline in the admissions into our Prisons and Subsidiary Jails of the First and Second Class, all the heads of this statement, except sentenced to transportation for life—which shows an increase of 15, and to death, which shows an increase of one—show a decrease as compared with last year. The increase under those sentenced to transportation for life is most marked in the Prisons of Dhulia 19, Thána 11, Ahmedabad 9, and Bijápur 4. The number sentenced to simple imprisonment and rigorous imprisonment with solitary confinement shows a slight decline, while the number sentenced to rigorous imprisonment shows, as might be expected, a very considerable decline. There is, however, an increase of 43 in the number sentenced to rigorous imprisonment with whipping. This was also noticed last year, and is due to the admissions of a comparatively larger number of previously convicted persons.

Statement No. IV.—Reconvictions.

9. The number of habituals identified by the Jail officials after arrival in the Jail has risen from 250 in 1900 to 538 in the year under report. This increase is, in a great measure, due to many prisoners who had been convicted for petty offences, such as assault, begging, drunkenness, &c., being discovered as having been previously convicted after their arrival in the Common Prison, Bombay. The number of prisoners who confessed themselves as habituals shows an increases of 70 over the figures of the previous year. With the general decline in admissions there has been a decrease under the head "Reconvictions" as will be seen in columns 3 and 7 of the table given below.

1	2	3	4	5	6	7	8
Number.	Prisons.	Number of convicts admitted during the year.	Number of convicts in column 3 identified as habitual offenders before convictions and whose previous convictions appear in the records of proceedings at the trial.	Number of convicts in column 3 not so identified and whose previous convictions did not so appear, but who were, after arrival in Jail, identified as habitual offenders.	Number of prisoners who confessed themselves to be habituals.	Total of columns 4 to 6.	Of the prisoners shown in column 7, the number classified by Courts as habituals.
1	Common Prison ...	3,576	425	340	...	765	256

17	Aden	144	8	...	...	8	1
	Total ... 1901 ...	16,723	2,523	538	119	3,180	1,452
	Total ... 1900 ...	23,921	2,983	250	49	3,282	1,763
	Total ... 1899 ...	16,209	2,317	191	78	2,586	949

10. From the information supplied by the Inspector-General of Police it appears that 195 persons were identified in the Bombay Presidency, exclusive of Sind, by means of finger-tip impressions as compared with 169 in the year previous. Of the 195 prisoners, 41 were identified at Yeraoda, 28 in the Common Prison, 23 in Thána, 21 in Dhulia, 12 in Ahmedabad, 10 in Sholápur, 9 in Násik, 9 in Dhárwár and the rest in the other parts of the Presidency.

Statement No. V.—Escapes and recaptures.

11. Out of the 8 escapes from within the walls, 3 got away from the Dhárwár Prison, regarding which a special report was submitted to Government, 1 from the Common Prison, 1 from Dhulia, 1 from Aden, 1 from the Subsidiary Jail of Surat and 1 from the Subsidiary Jail of Broach. Of the 16 prisoners who got away from without the walls of the Prisons and Jails, 6 escaped from the Ratnágiri Prison garden, a special report of which occurrence was submitted to Government at the time, 2 prisoners escaped from the extramural party of the Karáchi Prison, 1 from the Deccan Gang, 1 from Dhárwár, 1 from Rájkot, 1 from the House of Correction, 1 from Hyderabad, 1 from Shikárpur, 1 from Kárwár and 1 from the Subsidiary Jail of Sholápur. Of the 24 prisoners who got away during the year under report, 15 have been recaptured. Three prisoners, who had escaped during the previous ten years, were also captured during the year.

Statement No. VI.—Offences and punishments.

12. The marginally noted statement deals with the offences committed by, and punishments awarded to, convicts confined in Prisons and Subsidiary Jails of the First and Second Class. The offences dealt with by Criminal Courts have increased from 11 in the year 1900 to 23 in the year under report, and this increase is due to the larger number of escapes. The details of these offences are noted in the margin.

	1900.	1901.
Section 52, Prisons Act.		
Relating to work	1	3
Escapes, mutiny and assaults .	7	16
All other breaches of Jail Rules.	1	1
Indian Penal Code.		
Attempting to commit suicide.	1	2
Unnatural offences	1	1
	11	23

13. The number of offences committed by prisoners during the year under report is larger than that of the year 1900. The percentage of punishments to daily average strength during the year 1901 was 104·0 as against 82·3 in the year previous. Offences relating to work, and to all other breaches of Jail discipline, show an increase, while there is a decrease under the second and third head of the following table.

Offences dealt with—	1900.		1901.	
By Criminal Courts	11		23	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents.				
Relating to work	3,360	751	3,186	1,196
Do. prohibited articles	1,632	330	1,340	380
Do. assaults, mutiny and escapes ...	114	207	94	154
All other breaches of Prison rules	2,244	861	3,368	1,028
Total ...	7,350	2,149	7,988	2,758

14. The subjoined table shows the punishments inflicted during the past two years, from which it would appear that the total number of major and minor punishments awarded by Superintendents during the year under report were 10,815 and the total number of offences was 10,746. This difference is due to 69 offences in the past year having been dealt with by the award of "Combined punishments."

Punishments inflicted—		1900.	1901.
	By Criminal Courts	11	23
	By Superintendents.		
Minor.	Warnings	1,434	1,785
	Penal diet	831	789
	Separate, cellular and solitary confinement ...	112	258
	Hand-cuffing and link fetters	1,274	1,454
	Other punishments	3,881	3,756
	Total ...	7,532	8,042
Major.	Separate, cellular and solitary confinement ...	151	412
	Penal diet with solitary confinement ...	163	130
	Fetters and hand-cuffing behind or to a staple.	1,397	1,760
	Corporal punishments	159	141
	Combinations of minor punishments ...	140	111
	Other punishments	178	219
	Total ...	2,188	2,773
	Grand Total ...	9,731	10,838

15. Of the 10,815 punishments dealt with by the Superintendents of Prisons and Jails, 8,042, or 74 per cent., belong to the minor class, and 2,773, or 26 per cent., belong to the major class. Under the minor punishments all the heads except "Penal diet" and "Other punishments" show an increase, while under the head major punishments "Penal diet with solitary confinement," "Corporal punishments," and "Combination of minor punishments" show a decrease. The total number of corporal punishments show a decline of 18 over the figures for the year 1900. There has been a total increase of 1,095 in the number of punishments awarded during the year under report, and for this increase the Central Prison of Yeraoda is mainly responsible. In this Prison alone the increase of 1,518 punishments is distributed as under.

Warnings		231
Separate, cellular and solitary confinement		378
Penal diet		1
Hand-cuffing and link fetters		536
Other punishments		376
Corporal punishments		3
	Total increase ...	1,525
Deduct—Decrease under Combinations		7
	Net increase ...	1,518

The Superintendent Yeraoda Central Prison explains that there are many prisoners of the educated class who will not do their penal labour until punished again and again. He further states that as overcrowding diminished it became easier for all to maintain stricter discipline, and this resulted in a comparatively large number of offences for illicit articles, for bartering rations, and of malingering being detected.

16. The number of floggings is still rather too high in the Yeraoda Central Prison. The Superintendent himself is of this opinion, and states that in many cases he would prefer to give separate confinement as a punishment, but for want of punishment cells he is unable to do so. There are too few cells when the Prison is overcrowded, and I hope that this defect will be remedied when the extension of the Prison is undertaken. The punishments are undoubtedly high, but Major Jackson is not, in my opinion, unnecessarily severe, and there is no doubt that he maintains excellent discipline in the Prison.

17. The following table gives particulars as to the number of stripes inflicted on prisoners :—

		1	2	3						4	5	6	
		Total number of male prisoners for the year.	Total number of Prison offences.	Total number of prisoners punished by whipping.						Percentage of column 3 to column 1.	Percentage of column 3 to column 2.	Number of prisoners in whose case (a) Death or (b) Illness was directly or indirectly the effect of corporal punishment.	
				5 to 10 stripes.	Above 10 to 15	Above 15 to 20.	Above 20 to 25.	Above 25 to 30.	Grand Total.			(a) Death.	(b) Illness.
Total ...	1900* ...	32,651	9,356	16	16	30	35	62	159	0·5	1·7	...	...
	1901* ...	25,872	10,695	3	32	59	26	21	141	0·5	1·3	...	...

* The figures exclude the number of prisoners moved from Prison to Prison within the Department.

18. During the year under report 8,084 prisoners wore fetters, compared with 9,008 in the year previous. This decrease is due to the decline in the total number of convicts confined in our Prisons during the year under report.

19. *Mark System.*—From figures entered in Statement C, which is one of the appendices to this Report, it appears that 2,197 prisoners were released under the mark rules during 1901 as compared with 1,882 prisoners in the year previous. This increase is due to sentences of a comparatively larger number of long-term prisoners having expired during the year under report. The percentage during the year under report of those released under Mark System to the total number who might have been released under that system, if of average good conduct up to date of release, has remained nearly the same as the figures for last year, being 99·5 in 1901 against 99·1 in 1900. The practice of mustering all prisoners and reading and explaining to them the benefits of the Mark Rules has been continued during the year under report.

Statement No. VII.—Convict Officers.

20. Although the average number of prisoners employed as convict officers in Prisons and Subsidiary Jails of the First and Second Class is nearly the same, the figures being 1,014 males and 14 females in 1901 against 1,013 males and 13 females in 1900, the total number employed as such shows an increase of 475. This increase, as stated in the preceding paragraph, is due to the releases of prisoners sentenced to comparatively longer terms of imprisonment. The ratio per cent. of the average number employed as male Prison Officers to the daily average population of our Prisons and Jails during 1901 was 10·0 against 8·8 in the year previous. The number of punishments show an increase of 156, for which the Central Prison of Yeraoda, the Prison of Dhulia, the Deccan Gang and the two Bombay Prisons are mainly responsible. This increase is due to the increased demands made on the vigilance of our convict officers.

Statement No. VIII—Diet.

21. The marginally noted statement shows the different diet scales in force in the Prisons and Subsidiary Jails in this Presidency. The scales have been found to work satisfactorily, and such changes as have been made during the year under report have been noted in the fifth column of the statement.

Statement No. XVIII.—Under-trial Prisoners.

22. This statement deals with under-trial prisoners confined in Prisons, Subsidiary Jails and Lock-ups. The number of prisoners admitted during the year under report shows a large falling off, which, as explained in paragraph 5 of this report, is due to better harvest and consequent fall in the prices of food-grains.

23. The number of escapes have fallen from 57 in 1900 to 17 in the year under report. Out of the latter number, 9 prisoners got away from the Third Class Subsidiary Jails and 8, of whom 1 was a female, from Lock-ups, and are distributed as follows :—

Third Class Subsidiary Jails.		*Lock-ups.*	
Násik District	4	Khándesh District	5
Lárkhána District	3	Ahmedabad District	2
Karáchi District	1	Surat District (female) ...	1
Sholápur District	1		
	9		8

24. There have been 51 deaths—50 males and 1 female—during the year under report against 250 males and 13 females in 1900. Of the 51 deaths, 12 took place in the District and Central Prisons, 4 in the First and Second Class Subsidiary Jails and 34 males and 1 female in the Third Class Subsidiary Jails and Lock-ups. In the statement will be found the names of the Prisons where the deaths occurred. Of the 4 deaths which occurred in First and Second Class Subsidiary Jails, Ahmednagar was responsible for 2, and Broach and Wadhwan for 1 each. Of the 35 deaths which occurred in Third Class Subsidiary Jails and Lock-ups, 9 have occurred in the Ahmedabad District. Sátára, Násik and Dhárwár Districts accounted for 4 deaths each, and about ten other districts give 1 or 2 each.

25. There were on 31st December 1901, 255 males and 6 females in Prisons, 158 males and 10 females in First and Second Class Subsidiary Jails, and 828 males and 45 females in Third Class Subsidiary Jails and Lock-ups, thus making a total of 1,241 males and 61 females.

Civil prisoners.

26. The year 1901 opened with 65 male prisoners, 1,183 males and 2 females were received during the year, 1,142 males and 1 female were released, 1 male died in the Civil Jail of Hyderabad, leaving a balance of 105 males and 1 female at the end of the year. Owing to the higher average number of prisoners confined in Civil Jails, and to cheaper prices of food-stuffs, the annual average cost of a civil prisoner has fallen from Rs. 106-12-7 in the year 1900 to Rs. 59-5-4 in the year under report.

FINANCIAL.

Statements Nos. IX and X—Expenditure.

27. The statements noted in the margin deal with the gross expenditure on account of convicted and under-trial prisoners confined in the Central and District and Extramural Prisons and the Subsidiary Jails and Lock-ups. The cost of Police Guards has been omitted, as usual, and the realization from the sale-proceeds of garden produce deducted from the total charges. The gross expenditure during 1901 has been Rs. 8,78,446, and the cost per head Rs. 73-12-2, against Rs. 10,44,733 and Rs. 71-4-2 in the year previous. The rise in the cost per head, notwithstanding a much smaller expenditure, is due to a smaller average number of prisoners confined in 1901, as also to compensation which had to be paid to contractors on account of their losses in 1899-1900.

Establishment.

28. The increase of Rs. 2,115 in Prisons, under the marginally noted head, is due to annual increments granted to some of the Resident Superintendents and Jailors, to the appointment of an Assistant Surgeon of a higher grade to the Administrative charge of the Sind Gang, and to higher allowances paid to Medical Officers for Administrative charge of several of the District Prisons. Under the heading "Inspection and General Superintendence" there is a rise of Rs. 4,322. This is due to the separation of the offices of the Inspectors-General of Registration and Prisons on 1st April, since which time the whole of the salary of the Inspector-General of Prisons has been debited to the Department.

Dietary Charges.

29. The dietary charges have decreased from Rs. 40-15-0 per head in 1900 to Rs. 39-2-10 in the year under report. This decrease, which is due to cheaper prices of food-grains, would have been very considerable had it not been that a sum of Rs. 31,420-15-11 was paid in the year under report to contractors as compensation for loss in the year 1899-1900. If we deduct the amount paid as compensation to the contractors, we find that the dietary charges have decreased to Rs. 36-1-7, thus showing a decrease of Rs. 4-13-5 in the cost of feeding

prisoners as compared with last year. The contracts for provisioning our Prisons and Jails were again taken for short periods, which arrangement has resulted in a saving to Government of Rs. 9,890 during the last 4 months of the year 1901.

Garden.

30. Owing to the drying up of the wells in most of our gardens the value of vegetables and other supplies has fallen from Rs. 32,683-13-5 in 1900 to Rs. 25,462-1-5 in the year under report.

Hospital charges.

31. The actual expenditure under this head shows an increase of Rs. 5,112, and this is due to increased sickness in Yeraoda, Bijápur, Ahmedabad, Hyderabad and the Sind Gang. The average cost per prisoner shows an increase, the rise being from Rs. 3 in the year 1900 to Rs. 3-13-9 during the year under report.

Clothing and Bedding.

32. The total expenditure under this head in our Prisons has fallen from Rs. 43,245 to Rs. 29,199, and the cost per head from Rs. 3-12-6 to Rs. 2-13-9. This decrease is due principally to the smaller number of prisoners admitted during the year under report who required to be clothed. The expenditure in Sind Gang shows an increase of about Rs. 200, due to the issue of 500 turbans to prisoners working extramurally as protection from the sun. In the principal Subsidiary Jails the cost per head has also declined from Rs. 2-3-6 to Rs. 1-2-11. The decrease is due partly to the fewer number of prisoners confined, and partly to the issue of less blankets—an expensive article.

Sanitation charges.

33. The total cost and the average cost per head have fallen, respectively, from Rs. 28,405 and Rs. 2-7-9 in 1900, to Rs. 21,389 and Rs. 2-1-6 in the year under report. In the two Bombay Prisons the decrease is entirely due to the charges for water for the year 1901 not having been paid when the accounts for that year were closed. The decline in other Prisons was due to a much smaller expenditure for water, disinfectants, and temporary huts. The increase of Rs. 200 in Dhulia is due to the employment of extra warders in connection with plague precautionary measures. The average cost per prisoner in 1st and 2nd class Subsidiary Jails has fallen from Rs. 2-0-1 to Rs. 1-4-9. This decrease is due to its being found unnecessary to build new huts at Násik and Bhusával, as also to very reduced charges on account of temporary warders for guarding the segregation camp established outside the walls of the Sátára Subsidiary Jail.

Charges for moving prisoners.

34. There were fewer transfers during this year and yet there is an increase of Rs. 393 as compared with last year. This is due to a sum of Rs. 2,022 having been expended in moving transports from our District Prisons to the Special Prison of Thána for deportation to the Andamans—there being no similar charge during the year 1900—and also to the fact that transfers made from Dhulia to the Deccan Gang in 1900 cost nothing. The increase in Kárwár is attributable to the expenditure incurred in sending to their homes, on release, prisoners who were transferred thereto from the Bombay and Thána Prisons. The increase in the Deccan Gang is due to the cost of transfers made thereto from other Prisons having been debited against the expenditure of the Gang, and to the removal of the Gang from Mohadi, near Dhulia, to Visápur. The decrease in the Sind Gang was due to that Gang not having shifted its camp during the year.

Charges for other Miscellaneous Services and Supplies.

35. The total cost under this head in Prisons shows an increase of Rs. 1,572. The sub-heads "Lighting charges," "Disciplinary charges" and "Execution charges" show a decrease. The decrease under "Disciplinary charges" is due to the abolition of the Nowpáda relief camp. The increase under "Uniforms" is due to a much larger number of Prisons having supplied uniforms to the members of their warder staff. The rise under "Other Miscellaneous charges" is accounted for by the move of the Deccan Convict Gang from Mohadi to Visápur, and to the payment of freight for tents purchased during the year, for which a special grant was placed at the disposal of this Department by Government.

Travelling allowances.

36. The total expenditure in Prisons under this head shows an increase of Rs. 326, due principally to the shifting of the Deccan Gang from Mohadi to Visápur. The increase of expenditure under "Inspection and General Superintendence" is due partly to the removal of my head-quarters from Bombay to Poona and to the travelling allowances paid to office clerks and peons who accompanied me on my tours of inspection.

Contingencies.

37. The total cost of contingencies has fallen from Rs. 4,768 to Rs. 4,431 in our Prisons, and is due to the non-payment of Rs. 260 on account of rent rates and taxes due by the Kárwár Prison. The increased expenditure on Service postage stamps and on Current office expenses under "Inspection and General Superintendence" is due to the change of my head-quarters from Bombay to Poona. The increase under office furniture is due to the purchase of a clock and an iron safe for the use of my office. The increase under "Current office expenses" is due to a much larger supply, from the Yeraoda Central Prison, to our District Prisons, and its Printing Press itself, of bound Registers, Account books, &c.

Extraordinary charges for live stock, tools and plant.

38. This head shows an increase, due to the purchase of the tents alluded to in paragraph 35 above, the cost of which was Rs. 6,000.

Statement No. XI.—Employment of convicts.

39. Reviewing the figures in the marginally noted statement, it would appear that the average number of prisoners sentenced to labour has decreased from 10,745 in Prisons, and 891 in Subsidiary Jails of the 1st and 2nd class in 1900, to 9,833 and 464, respectively, in the year under report. The percentage of sick and convalescents in Prisons has risen from 5·7 to 7·4, and in Subsidiary Jails from 5·9 to 6·7. On account of a comparatively smaller number of admissions of prisoners requiring to be quarantined, there is a decrease both in Prisons and Jails in the "average number not employed for other reasons." The decrease under "unremunerative labour" is attributable to profitable work having been found for the prisoners of the Deccan Gang. The number employed as Prison officers and Prison servants is nearly the same during both the years. On account of scarcity of water, as explained in paragraph 30 of this Report, the number employed on "gardening" shows a decrease, while the decrease under grinding grain and preparing articles for Prison use is due to a smaller average number of prisoners confined in our Prisons and 1st and 2nd class Subsidiary Jails, and to this cause is attributable the decline under "Additions and Alterations," &c.," and "Manufactures." Extramural labour shows an increase which, as stated above, is due to the employment of convicts of the Deccan Gang on remunerative labour. A daily average number of 111 prisoners was employed in the Prison of Bijápur in cutting down prickly pear, whose earnings, if paid for, would have amounted to Rs. 5,079 at the rate of 2 annas per head per day.

Statement No. XII.—Net cash earnings.

40. The statement noted in the margin shows the net cash earnings of convicts sentenced to labour. On comparing the figures for the year 1901 with those of the year previous, it will be found that the cash earnings have risen from Rs. 62,622 to Rs. 1,07,566, while the average cash earnings have risen from Rs. 5-6-0 to Rs. 10-7-0 per head. Of the amount of Rs. 1,07,566, Rs. 55,492 show the profits of factory operations, Rs. 49,945 of extramural labour, Rs. 103 for convicts hired to contractors for employment on Prison buildings, and Rs. 2,026 represent the earnings of our 1st and 2nd class Subsidiary Jails. The Central Prison of Yeraoda, the Prison of Dhárwár, the Special Prison of Thána, the Central Prison of Ahmedabad and the Special Prison of Aden have in a minor degree contributed towards this increase, but it is chiefly due to the two Convict Gangs where the profits have risen from Rs. 498 to Rs. 18,895 in the Deccan Gang, and from Rs. 12,281 to Rs. 23,201 in the Sind Gang. The average cash earnings per head of the number employed on manufactures, inclusive of extramural employment, has risen from Rs. 20-12-0 in 1900 to Rs. 34-12-0 in the year under report.

41. During the year 1901 Jail-made articles of the value of Rs. 10,269 were sold to Government Departments, against Rs. 10,098 in the year previous. Articles sold to Public Works, Telegraph, other Civil Departments, and Commissariat Department show a decrease, while there is a rise under Marine and Military Departments. The figures for 1901 are—Public Works Department, Rs. 1,423; Telegraph Department, Rs. 919; other Civil Departments, Rs. 3,468; Commissariat Department, Rs. 503; Marine Department, Rs. 2,501; and Military Department, Rs. 1,455.

Sind Gang.

42. This Gang was encamped near the Bhiria Road station throughout the year. The earnings of the Gang, with an average population of 438 prisoners, have been Rs. 23,201, against Rs. 12,281 with an average population of 400 prisoners in 1900.

Deccan Gang.

43. As stated in paragraph 42 of my Report for 1900, this Gang was moved from its camp near Dhulia to Visápur in the Ahmednagar District in the early part of the year under report, and has been employed on the Visápur Tank project. The average population of this Gang in 1901 was 523 prisoners and their earnings have amounted to Rs. 18,895.

Sale of Quinine packets.

44. The quinine industry in the Central Prisons of Yeraoda and Hyderabad shows a profit of Rs. 2,269 in the year 1901, against Rs. 1,251 in the year previous. The value of quinine and packing materials purchased during the year was Rs. 15,587 against Rs. 8,517 in the year previous. The amount paid into the Treasury in 1901 was Rs. 16,451 against Rs. 9,383 in 1900. These figures are satisfactory. They indicate that the people have derived benefit from the drug, thus showing that it reached them in good order, that they do not find the cost excessive, and that they have no difficulty in obtaining it from the Post Offices. At one time I was afraid that persons were purchasing this quinine from the Post Offices with a view to selling it, but this, on enquiry, was found not to be the case.

Yeraoda Printing Press.

45. During the year under report the Yeraoda Jail Press has executed the following works, in addition to supplying all the requirements of the Jail Department:—

1. Printing and binding of books and forms for the Registration Department, numbering 16,528 and 280,000, respectively, in English, Maráthi, Guzeráti and Kánarese languages.

2. Making and printing of all standard and special envelopes for all Departments. The total number of envelopes despatched from the Press amounted to 6,336,376.

3. The printing and supplying of forms to the Special Judge, &c., under Deccan Agriculturists' Relief Act, numbering approximately 341,460 forms.

(4) The preparation of guard and blank books for Registration and Stationery Departments, numbering respectively 1,721 and 450.

46. In connection with the work turned out by the Press, it may interest Government to know that Mr. Risley, the Census Commissioner for India, in his letter No. 595 of 24th September last, wrote:—"The results obtained in cutting and supplying the enormous number of 90 millions slips are most creditable to the Administration of the Yeraoda Jail. I am specially indebted to Mr. George for his simple solution of a difficulty which baffled the various mechanicians to whom it was referred in Calcutta." Mr. Enthoven, the Provincial Census Superintendent of this Presidency, in his letter No. 6173 of 27th August last, to the address of the Superintendent, Yeraoda Central Prison, remarks: "Though slips of the shapes cut by you were preferred by the Census Commissioner for India to all others, in no other part of India have the local presses been able to manufacture them."

47. In paragraph 46 of my Administration Report for 1900, I stated that the Press had made a profit of Rs. 18,857-12-11. Shortly after writing

this I made a very careful inspection of the Press accounts and then discovered that the value of stationery used in the Press had never been deducted from the abovenamed sum. This year the value of all stores, miscellaneous articles required for printing, and stationery have been deducted and the Press shows a profit of Rs. 15,529-14-4.

48. We still suffer from want of sufficient room to carry on our operations. Government have permitted me to call for plans and estimates for a building for the Press, and when the building is erected great strides will be made in this industry.

Statement XIII.—Net cost.

49. It will be seen from this statement that the total cost, excluding charges for Inspection and General Superintendence, has amounted to Rs. 8,47,649 in the year 1901, against Rs. 10,19,334 in the year previous. The total cash earnings have been Rs. 1,07,566 against Rs. 62,622, thus making the total net cost to Government of Rs. 7,40,083 against Rs. 9,56,712 in 1900. The average net cost per prisoner during the year under report has been Rs. 62-2-0 against Rs. 65-4-0, or a decrease of Rs. 3-2-0 over the figures of the previous year, and the decrease would have been still more marked had it not been for the compensation which we paid to contractors, alluded to in paragraph 29 above.

VITAL.

Statement No. XIV.—Sickness and Mortality.

50. The marginally noted statement shows the sickness and mortality amongst prisoners of all classes during the year. With a daily average strength of 11,987 prisoners confined in Central, District, Special and Extramural Prisons, Subsidiary, and Civil Jails, and Lock-ups, there have been 11,555 admissions into hospital. The daily average number of sick has been 405·5, and the total number of deaths 419, or a ratio of 35·0 per mille of average strength. The figures for the year 1900 are as under:—Daily average strength, 14,725; admissions into hospital, 11,451; daily average sick, 366·8; the total number of deaths 836, or a ratio of 56·8 per mille of average strength.

51. The following table shows the capacity of our Prisons together with the daily average and the maximum population confined therein on any one day during the year under report. The total accommodation of the Thána Special Prison has been increased from 653 to 730 by including in the sleeping accommodation 12 cells, the new contagious diseases wards (35), and a dormitory (30), which was formerly used as a weaving shed.

No.	Prisons.	Capacity, inclusive of Hospital and Cell accommodation.	Daily average number.	Maximum Population.
1	Common Prison	180	449	548
2	House of Correction	262	436	576
3	Yeraoda	1,430	1,867	2,058
4	Dhulia	234	819	1,013
5	Bijápur	294	453	568
6	Dhárwár	336	600	674
7	Kárwár	252	308	365
8	Ratnágiri	228	172	219
9	Thána	730	885	1,191
10	Ahmedabad	920	1,384	1,537
11	Rájkot	102	135	192
12	Karáchi	412	306	373
13	Hyderabad...	865	900	1,058
14	Shikárpur	433	495	595
15	Aden	77	40	56
	Total ...	6,755	9,249	11,023

52. From the figures appearing in the table given in the foregoing paragraph, it will be seen that looking to the daily average, all the Prisons except the Prisons of Ratnágiri, Karáchi and Aden were overcrowded throughout the year. Out of the remaining 12 Prisons and 2 extramural gangs, the Common Prison (57·2) and the House of Correction, Bombay (71·1), the Special Prison of Thána (39·3), the Central Prison of Ahmedabad (43·8), the District Prison of Rájkot (74·1), and the Sind Gang (121·0), exhibit a ratio of mortality in excess of 33·3 per mille of average strength.

53. It will also be seen that it was not possible to terminate the overcrowding which existed in nearly all our Prisons. In addition to work-sheds or other buildings, which were largely utilized for the accommodation of the excess population of our Prisons, nearly all our Prisons have now been equipped with tents. The year 1901 opened with a population of 10,854 prisoners in Prisons and 764 in 1st and 2nd class Subsidiary Jails, and closed with 9,834 prisoners in Prisons and 528 in Subsidiary Jails of the 1st and 2nd class.

54. It will be seen from the figures in connection with the sickness and mortality amongst convicts and under-trials confined in Prisons during the past 2 years, that the daily average sick has risen from 321·0 in the year 1900 to 377·3 in the year under report, notwithstanding a smaller daily average number of prisoners confined. The ratio per mille of deaths to daily average strength and to admissions into hospital has fallen, being respectively 36·2 and 36·3, as compared with 46·9 and 59·5 in 1900. Deaths have fallen from 536 to 370.

Common Prison.—There were 27 deaths, out of which 9 were due to relapsing fever, 6 to remittent fever and 2 to tubercle. The Medical Officer remarks :—"The sickness and mortality were chiefly due to climatic causes and to the general unhealthiness prevailing in Bombay." It is satisfactory to note that although several cases of plague took place in the immediate vicinity of the Prison, not a single case occurred within the walls.

House of Correction.—Out of a total number of 31 deaths which occurred during the year, plague accounts for 16. There were 6 cases and 4 deaths from tubercle. The Medical Officer writes :—"The continued overcrowded state of the Jail possibly increased the sickness and mortality from tubercle."

Thána Special Prison.—There were 35 deaths, of which 10 were due to tubercle and 6 to dysentery. The Medical Officer remarks :—"The chief factor in the causation of disease and mortality is climatic. But prisoners are also admitted in weak state of health and are soon attacked with disease incidental to unhealthy condition of prison life. Out of the total number of deaths during the year under report, 19 occurred amongst convicts who were admitted in weak and 8 in fair state of health." The Medical Officer also writes :—"The most noteworthy feature concerning the mortality in this prison this year, as well as in the two previous years; is that nearly half the deaths occur among the convicts that are transferred from the Násik District. . . ." In this connection I would observe that 185 convicts, who would in the ordinary course have been sent to Thána from the Subsidiary Jail, Násik, were transferred to Yeraoda. The Central Prison, Yeraoda, having been declared the District Prison for the confinement of prisoners coming from Násik, few prisoners from the Deccan will be now sent to Thána.

Ahmedabad Central Prison.—There were 61 deaths in this prison. Of these 18 were due to pneumonia, 8 to tubercle, 5 to dysentery, 4 to diarrhœa, 4 to ague and 1 to cerebro-spinal fever. This high mortality is attributed by the Medical Officer to the continued prevalence of famine and scarcity during the last three years, which have contributed considerably to render the constitution of the people less liable to withstand disease. 31 prisoners died within 6 months and 5 within 1 year of their admission. With regard to the cases of ague, the Medical Officer writes :—"Ague prevailed to a greater extent this year than in the year preceding, in which there were 121 admissions against 240 this year. The presence of mosquitoes in the Prison has not, as a rule, been observed, but the fever may probably be said to be due to the prisoners in many cases having been exposed to the infection outside the prison walls." In regard to pneumonia, the Medical Officer writes :—"There were 44 admissions for pneumonia with 18 deaths; the disease was due in many cases to the men having carelessly exposed themselves to cold and chill, and may perhaps have been due to infection in the others,

There were 18 deaths from this cause, as the persons attacked were generally in a debilitated state of health at the time of admission." If this number be not taken into account, the ratio of deaths per mille of average strength would fall to 30·8.

Rájkot Prison.—Ten deaths took place in this Prison. The cause of sickness and mortality is attributed to the fact that the whole population of Káthiáwár, from which the prisoners of the Rájkot Prison are drawn, have suffered from privation if not starvation, and that in their debilitated state the climatic effect of an unusually short monsoon has given rise to malarial fevers.

Sind Gang.—Excluding the 49 deaths which took place from pneumonia, only 4 deaths occurred during the whole year, of which 1 was due to remittent fever, 1 to inflammation of the intestines, 1 to acute nephrities and 1 to sun-stroke. These 4 deaths will give a ratio of mortality of 9·1 against 121·0, which includes deaths from pneumonia. A special report of the outbreak of pneumonia was submitted to Government after I had twice visited the gang, *vide* my Tour No. 1 of 25th January 1902, and Judicial Department endorsement No. 2236 of 1st April 1902.

Plague.

55. Of 17 cases of plague which occurred in the House of Correction, Bombay, 9 were treated on the Jail premises, of which 8 proved fatal and 1 recovered; the remaining 8, which were removed for treatment to the Arthur Road Hospital, terminated fatally. Of the 6 cases which took place in the Thána Special Prison, 3 recovered, 1 was discharged otherwise and 2 died. In this connection the Medical Officer states :— "Precautionary measures were adopted to prevent an outbreak of plague in the Prison, which prevailed more or less throughout the year in the town of Thána and several other parts of the District, 6 prisoners were nevertheless attacked with the disease, 3 in February and 3 in November 1901. Of the former 2 died. It is difficult to assign any cause for these attacks. No dead rats had been found on the Jail premises, and this disease had not appeared among the establishment. No extra-mural parties had been sent out, and those attacked had been working in the Jail kitchen garden. None of the prisoners attacked in November died of the disease. Of the 3 attacked, 2 were convicts and 1 was an under-trial prisoner. Of the former, one was put on work in the flower garden, where dead rats had been observed, and the other was working in the kitchen garden, where no dead rats had been discovered. The under-trial prisoner had not been out of custody, and had been confined to his cell all the time he was kept as under-trial. It is difficult to say how he contracted the disease, as no dead rats had been found where he was quartered. 264 convicts were inoculated with M. Haffkine's anti-plague serum on the re-appearance of the disease in November." The single case, which occurred in the Yeraoda Central Prison, recovered, while the 2 that took place in the Dhárwár Prison terminated fatally. There was 1 death from plague in the Karáchi Prison. One prisoner who remained under treatment at the close of 1900, in the Subsidiary Jail of Sátára, recovered.

56. The ratio per mille of deaths in Central, Special, District and Extra-mural Prisons during the year 1901 has been 36·2. If the mortality due to plague, relapsing fever and pneumonia were left out of calculation, the death-rate will fall to 22·8.

57. The following measures, which were adopted during the year under report with a view to improve the health of the prisoners confined in some of our Prisons and Jails, are inserted in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115 of 29th December 1896 :—

1. Issue of wheat and rice in lieu of bájri and jowári.
2. Issue of extra rations to weakly prisoners and convalescents.
3. Issue of an extra morning meal, consisting of 2 ozs. of warm conjee to prisoners of the Sind and Deccan convict gangs before they started to work.
4. Issue of extra clothing to weakly prisoners.
5. Free administration of cinchona alkaloids and quinine whenever necessary in places showing tendency to malaria.

6. Inoculation by Professor Haffkine's prophylactic serum.

7. Issue of potatoes in lieu of green vegetables.

58. Reviewing the health statistics of Subsidiary Jails and Lock-ups, it appears that the total population has fallen from 104,095 to 66,260, and the daily average strength from 3,224 to 1,699. The daily average sick during the year under report was 28·2 against 45·8 in the year 1900. The ratio of deaths per mille to daily average strength has fallen from 92·4 to 28·3.

59. From the figures appearing in the statement noted in the margin, it will be seen that there was no cholera in any of our Prisons or 1st and 2nd class Subsidiary Jails. The Prisons which appear to have suffered most from malarial fevers, which prevailed to a considerable extent during the year under report, were Yeraoda, House of Correction, Dhulia, Dhárwár and Ahmedabad. The 298 prisoners from Dhárwár, who were transferred to Yeraoda during the previous year, have again suffered considerably, giving an undue proportion of ague, namely, 628 cases. Cases of other general diseases have risen from 1,484 to 1,635, and of pneumonia from 225 to 344. Other respiratory diseases show an increase of 245 over the figures of the previous year.

Statement No. XV.—Chief diseases.

60. 19,449 prisoners were discharged during the year, of whom 11,125, or in other words 57·2 per cent., gained weight, against 64 per cent. in the year 1900; 4,950, or 25·5 per cent. lost weight, against 18·6, and the percentage of those who remained stationary is nearly the same, the figures being 17·3 in 1901 against 17·4 in the year preceding.

Statement B.

OFFICIAL AND NON-OFFICIAL VISITORS.

61. There were 256 official visitors during the year for 17 Prisons and 13 principal Subsidiary Jails. The 74 quarterly meetings, which were held during the year, were well attended. The visits paid to our Prisons and Subsidiary Jails by official visitors number 968 and by non-official visitors 118.

BUILDINGS.

62. A sum of Rs. 15,300 was sanctioned by Government during the year under report for increasing the accommodation of the Dhulia Prison; Rs. 2,000 was given for an hospital ward in the Subsidiary Jail of Sátára; Rs. 1,400 were allotted for strengthening the main entrance of the Bijápur Prison. Three latrines of 6 seats each for hospital were constructed in the Yeraoda Central Prison at a cost of Rs. 1,230. The surface drainage of the Bijápur Prison was improved at a cost of Rs. 1,000, and a dead-house was built in that Prison which cost Rs. 1,000. A work-shed was constructed in the Subsidiary Jail of Sátára at a cost of Rs. 679. In addition to the above, a sum of Rs. 3,000 was allotted for Discretionary Grant to this Department, of which amount Rs. 2,977 have been expended.

MISCELLANEOUS REMARKS.

63. During the year 1901 the following Prisons, Gangs and Subsidiary Jails were visited either by Mr. Filgate or by myself:—

Central Prisons.	District Prisons.	Subsidiary Jails of 1st and 2nd class.	Subsidiary Jails of 3rd class.	Gangs.
Hyderabad. Ahmedabad. Yeracda.	Thána. House of Correction. Common Prison. Karáchi. Shikárpur. Dhárwár. Bijápur. Dhulia.	Belgaum. Sátára. Sholápur. Ahmednagar. Surat. Broach. Umarkot.	Jacobabad. Sukkur.	Deccan Gang. Sind Gang.

64. As stated in paragraph 62 of last year's report, provision has been made in the plans and estimates of the new Karáchi Prison project with a view to its sleeping barracks being fitted up with cubicles, and a similar provision will be made in the plans and estimates of the Násik District Prison project, as also in the estimates for increasing the sleeping accommodation of the Yeraoda Central Prison. None of our Prisons and Jails have been provided with cubicles during the year under report.

65. The text of the Revised Bombay Jail Manual has been completed and bound in one part, copies of which have already been supplied to Government. Its appendices are in the Press and it is hoped will be ready for issue in about two months' time.

66. I regret that this report is again overdue. Some of the District Magistrates again experienced difficulties in sending in the returns of the 3rd Class Subsidiary Jails, and the last report did not reach me till the 28th April. As mentioned in paragraph 2, I propose to address Government on the subject of these returns and other matters connected with these 3rd Class Subsidiary Jails.

I have the honour to be,

Sir,

Your most obedient Servant,

H. N. ALEXANDER,

Inspector-General of Prisons.

General Summary showing the Distribution of the Prisoners of all Classes confined

1	2	3	4			5		
Station.	Place of Confinement.	Classes of Prisoners.	Remained at the commencement of the year.			Received during the year.
